

Eye 320SE

Plug & Play VGA Web Cam with headset

What valuable web camera set this is! The new Eye 320SE is designed with a high performance VGA sensor that enhances images quality with vividness and clarity for video chatting. Eye 320SE is a USB video class web camera featuring plug and play under Windows Vista, XP SP2 and Mac 10.4.9 above, plus it's high speed USB2.0 so it can work smoothly whenever you're plugging it in with any brand of notebooks or desktops. Moreover, if you install the driver, you get more features like image noise reduction, anti-flicker setting, face tracking and special effects!

And as an added bonus, Eye 320SE is bundled with a stylish and comfortable headset with a built-in microphone. It also includes interesting software programs – CrazyTalk Cam Suite and CrazyTalk Avatar Creator for you to spice up your videos. There's no doubt, Eye 320SE lets you create conversation easily so contact your sales person for more information.
